

Smart 12

For Cattle producing 12 to 20 Liters of milk

Introducing Smart 12 Feed a high-performance nutritional solution tailored for milking cows, supporting milk production of 12 to 20 liters per day. Our feed is rich in essential vitamins, minerals, and amino acids, ensuring optimal health, **strong immunity**, and peak performance. Fortified with **essential fatty acids**, it enhances overall bovine well-being, reproductive efficiency, and milk quality. Specially designed for **high digestibility**, it promotes rumen health, efficient nutrient absorption, and sustained energy levels. Smart 12 Feed ensures your lactating cows stay nourished, productive, and thriving for consistent **dairy performance**.
